

## Using a validation

Enter the parking structure and press the TICKET button to receive an entry ticket. You will need the ticket to exit the structure.

When exiting the parking structure:

1. Scan entry ticket QR code in the scanning area.
2. When prompted for payment, scan the validation QR code.

The exit gate will raise a couple of seconds after full payment is received. Please exit and drive safely.

Press the “Help” intercom button for assistance if you have any issues.

---

Note: not valid in lots staffed for special events.
